TAX RATE OF COUNTY SAME AS LAST YEAR

COMMISSIONERS COURT SET LEVY AT \$1.20 AGAIN

All Except Two School Districts In County Remain Same as They Were in 1929

There will be no increase in the tax rate of Randall county for this year, the tax levy remaining at \$1.20 on the \$100 valuation the same as it was last year. The County Commissioners court completed the levying of the taxes last week.

The amount of \$1.20 of last year was in increase of 8 cents over the year before, made necessary because of the paving program of Randall county. However, the commissioners found that it would not be necessary to change the total tax rate for this year.

The following are the items for the various funds of the county:

General Tax fund, 25c on the \$100 valuation.
 Jury fund, 15c.
 Special road maintenance, 15c.
 Court house and jail, 17 1/2 c.
 Court house and jail bonds 1901, 1/2 c.
 Court house and jail bonds 1908, 6c.
 Road and bridge regular fund, 15c.
 Road and bridge warrants, series B, 6c.
 Highway paving bonds, 1927, 20c.

In the school districts there was an increase of the tax rate in only two districts. They are district 1 and district 23. The levies of the districts are as follows:

Dist.	Old Rate	New Rate	Local Fund	Sinking Fund
1	.70	1.00	.80	.20
6	1.00	1.00	.67	.33
8	1.00	1.00	.60	.40

Mark Foster Opens New Eagle Cafe

Mark L. Foster, who has operated a sandwich shop in Canyon for several months, has now opened a new place under the name of the Eagle Cafe and will serve regular meals, as well as sandwiches, he announces.

The new cafe was opened last week-end and is new in every respect. It is located in the north part of the new Livingston brick on the east side of the square.

The sandwich shop formerly operated by Mr. Foster was closed following a fire that practically destroyed it about two months ago.

Hole-in-One Made on College Course

Ben Guill, an ex-college student and at present a teacher in the Panhandle schools, while playing on the college golf

course Tuesday shot a hole in one. Guill was playing with Homer Pool, Billie McClure, Mason and Bill Anderson, and May Hale.

He made the hole in one shot, when he drove to the sixth green which is 258 yards from the tee, and is a par 4 hole.

Enrollment for High School to Begin Sept. 5

Enrollment for the Canyon High School will begin Friday morning, September 5, according to word from Superintendent Irby Carruth, who is in Chicago at this time.

Mr. Carruth states that he is very well pleased with the outlook of the school for the coming year and is expecting the largest enrollment in the history of Canyon during the coming year. With the enrollment of the pupils Friday, regular work will begin Monday, September 8.

The announcements made by Superintendent Carruth are as follows:

High School
 Friday, September 5, from 9 to 12 a. m.: all seniors and juniors.

Friday, September 5, from 1:30 to 3:30 p. m.: all eighth and ninth grade students.

Elementary School
 Friday, September 5, at 9 a. m., all new students above the first grade who are entering the elementary school for the first time.

Monday, September 8, at 8:45 a. m., all children enrolling in the elementary grades.

The students who expect to enroll in high school are requested to report promptly at the beginning of the period for their registration.

Claim Record of State for Randall Cow

Randall county now presents claim for the record producing grade Jersey cow of Texas. According to records of W. T. Dungan, tester for the Randall County Cow Testing association, Brindle, a grade Jersey cow belonging to H. R. Fulton, produced 95 pounds of butterfat in the month of July.

It is believed by a number of persons here, who are interested in dairying, that the Fulton cow has placed herself in an almost undisputed position for claim to the State record.

The cow comes from the Fulton herd which is in many respects one of the outstanding grade herds of the Panhandle. He started his herd with the foundation of two common grade cows about 11 years ago and now he has an exceptional grade herd. Continual improvement and a steady program of line-breeding has produced this herd.

He uses purebred Jersey bulls in his line-breeding.

Despite the fact that Brindle, the six-year-old record cow, has had two attacks of milk fever during the past eight months she has produced 12,005 pounds of milk and 649 pounds of butterfat. This production was made on just two milkings a day, while most production records are made by cows that are milked three and four times a day.

The cow is a cross-bred Short-horn-Jersey. Her dam was a Short-horn and her sire was a purebred Jersey.

Mr. Fulton keeps an accurate record on the production and the cost of feed, not only on his herd, but the individual cows as well. He has culled out the unprofitable cows and added young heifers of his own breeding to the herd, relying upon that source only, for new stock.

In July the average butterfat production of the entire herd of 30 cows was 43.3 pounds, while his

Eastwood is Now in New Location

The Eastwoods Store which is now located in the south portion of the new Livingston brick on the east side of the square, have set Saturday as their opening day in the new building.

The establishment which for a number of years was known as the Canyon Shoe Shop, still operates a shoe repair shop in connection with the store. The store has for several months carried a line of shoes and clothing. With the removal to the new location, the stocks have been enlarged and are displayed in a more attractive manner.

NIGHT PLAYING MADE POSSIBLE FOR BUFFALOES

SIGN CONTRACT FOR 72,000 WATT EQUIPMENT

Buffalo Stadium Will Have Best Lights of Any Football Field, Says Reeds

Buffalo Stadium will be equipped with the best lighting equipment and will use the largest number of watts of any equipment ever to be erected on any football field, according to a statement made by Coach Claude Reeds, yesterday in announcing the signing of a contract by officials of the West Texas State Teachers College and the Texas Utilities Company.

As a result of signing the contract for the new lighting equipment, making it possible for night football games to be played at Buffalo Stadium, a number of the games on the 1930 Buffalo schedule have been changed from the afternoon to night. So far all games in October home games have been changed and others are expected to be changed, Coach Reeds states. The games affected by the change are with, Panhandle A & M, Friday, October 3; Abilene Christian College, Saturday, October 11 and East Texas State Teachers College, Friday, October 17.

It is hoped that at least one more night game may be added to the regular schedule that was completed last winter when all games were originally scheduled for day-time games.

The new equipment will use 72,000 watts to light the field. The lights will be placed on 50 foot poles at intervals of 25 yards on each side of the field. The reflectors will be 4 feet across and will cast the light over the field.

Texas Utilities Company Reflects Growth of City

Substantial proof of the growth of Canyon may be well reflected in the following information issued by the local office of the Texas Utilities Company. In a check-up on the growth of the local plant, since it was purchased by the utilities company five and one-half years ago, has revealed some interesting facts in regard to the growth of both the company's business and the town.

When the Texas Utilities company purchased the light and power plant from the Canyon Light and Power company here, on October 25, 1924, electrical current was being furnished to 486 customers. At the present time the utilities company serves 915 customers. This is an increase of 429 customers, or almost 100 per cent within the past five and one-half years.

There has been an increase of 78 customers since January 1, 1930. It is interesting to note that 44 of these connections were made to new buildings and home that had never been served before.

Judge I. R. Kelso, of St. Louis, president of the Texas Utilities company, who visits the territory served by the company every few months, was in Canyon only a few days ago looking over the properties here. He has made a number of visits to this section during the past few years, but each time he is here he is more pleased with the growth and is very complimentary in his praise of the country as a whole.

Permits for Year are Near \$100,000

Building permits in Canyon neared the \$100,000 mark here this week when two permits amounting to \$8,000 were issued, bringing the year's total to \$99,350.

A permit was issued to Mrs. J. A. Cheatham for the erection of a brick veneer residence at 2006 Sixth Avenue, to cost \$5,000. George Small is the contractor.

Another permit was issued to Clem Premler for the erection of a stucco residence at 1401 Second Avenue to cost \$3,000.

Mrs. Billy McClure visited her mother, Mrs. Hudgins in Abernathy over the week end.

100 Voters May Lose Votes in Coming Primary

Approximately one hundred voters in Canyon will lose their ballots in the election next Saturday if they are not careful in marking their ballots. Hud Prichard, election judge at the court house box, stated that practically that number makes mistakes in the July primary. The law provides that the judges may use their judgment in determining the intention of the voter. This was possible in the first primary on account of the large number of candidates.

For instance, several voters made a cross in front of the name of the candidate they selected to support. This is wrong.

Other voters put crosses in front of the names of those they did not wish to support, and left the name of the one candidate of their choice. This is wrong.

Texas laws provide that the voter must mark out the names of all candidates whom they do not wish to support.

In the election Saturday there are only two candidates for each office involved in the run-off.

There are two candidates for governor.

If the voter wishes to support Ross S. Sterling, a line with a black pencil or black ink MUST BE RUN THROUGH THE NAME OF Miriam A. Ferguson. On the other hand, if the voter wishes to vote for Mrs. Ferguson, the name of Mr. Ross Sterling MUST BE MARKED THROUGH with a black pencil or pen.

There are many voters coming here from other states which use a cross to designate the selection of the voter. Texas does not use that system. All names must be marked out which the voter does not choose to support.

Mr. Prichard advises those who do not understand, and have not voted often in Texas to ask for information. The judges will give all necessary information.

DON'T LOSE YOUR VOTE SATURDAY THROUGH A MISTAKE.

District Court Is Nearing End of Summer Term

In the final week of the summer term of the District court two divorces have been granted, several cases dismissed, one estate settled and several other cases tried.

Two indictments were returned Monday by the Grand Jury which has been recessed since then and will be until tomorrow. The total number of indictments returned are 14 for this term. One of the indictments returned Monday charged J. W. Howell with theft.

A judgement favoring the plaintiff in the case of S. P. Robinson vs. Mrs. Olive J. Sevall, et al, J. M. Black, C. A. Elder, and T. G. Lair were appointed by the Court to act as commissioners in settlement of the Costley estate.

The case of S. C. McAdams vs. Pannher Oil and Grease Mfg. Co., was dismissed upon motion of the plaintiff and the suit of Lucy Dougherty vs. Roy Lindsey was dismissed by the Court for lack of prosecution. The suit of L. T. Lester against C. V. Duncan was also dismissed by the Court.

A judgement was rendered in favor of the plaintiff in the case of O. W. H. Cook vs. T. M. Parker a suit on a debt in the amount of \$4,908.22. The case of B. T. Forbes, vs. Stone Fort National Bank of Nacogdoches, was continued until the next term of court. The suit of W. B. Campbell et al. vs. W. A. Patterson et al. resulted in a judgement in favor of the plaintiffs.

W. S. Nixon was tried Monday upon charge of driving while drunk and found guilty. He was given an 18 months suspended sentence.

A commission suit which was the outgrowth of an alleged breach of promise regarding a land sale consumed most of the day, Wednesday.

Mr. and Mrs. Lee Foster returned Tuesday from Colorado where they have been on a week's vacation trip.

PRIMARY ENDS STRUGGLES ON SATURDAY 23

GOVERNOR'S RACE STILL HOLDS MAJOR INTEREST

Six State, Three County and One Precinct Races Will Be Settled Saturday

Saturday will bring to a close one of the most hotly contested races for the office of governor since the inauguration of the double primary system about a quarter of a century ago. This campaign has been waged between the forces of Ross S. Sterling, Houston capitalist and present chairman of the State Highway commission and the forces of Mrs. Miriam A. Ferguson, Texas' first woman governor, who was defeated four years ago in the race for re-election to a second term by Dan Moody, present governor.

James E. Ferguson, former governor, who was impeached in 1917 and who has figured in most every political fight in Texas during the past 15 years, is directing his wife's campaign. He announced for the office early in the spring, but was refused a place on the ballot because he had been impeached from the office. Immediately following the decision of the State Executive committee of their refusal to allow Ferguson's name to go on the ballot, Mrs. Ferguson became a candidate.

This campaign has found Farmer Jim at his best in his characteristic mud-slinging campaigning. Although he has been counted out of State politics a number of times during recent years his popularity seems to be far from waning as it appeared to be doing four years ago. The bargages sent forth from the Sterling camp have ejected the

Lay First Brick In Paving Today

The first brick in the paving program of Canyon at this time was laid this morning. Workmen began laying brick in the block on Fifteenth street between Fourth and Third Avenues.

The work is being done by C. N. Harrison, local contractor, who holds the contract for the paving of 12 blocks to cost approximately \$30,000. He announced at the time the contract was signed that he would push the work forward with record speed. There has been no delays of any importance since the first work was begun.

SPEAKS FOR BROTHER

Renne Alfred, jr., formerly a county and district attorney of Montague county, spoke here tonight on behalf of the candidacy of his brother, Jimmy Alfred of Wichita Falls for the office of attorney general of Texas.

CHANGES POSITION

Hiram Platt, formerly with the Piggly-Wiggly grocery store, is now associated with the M-System in the capacity of checker.

Amarillo Men Speak Here for Mrs. Ferguson

O. Ellis and A. M. Fischer, Amarillo attorneys were both speakers at a Ferguson rally held on the east side of the court house Wednesday afternoon, which was presided over by Oscar Smith. A crowd estimated at 150 to 200 gathered before the speaking ended.

Mr. Fischer, unhesitatingly entered upon an attack of the Moody administration. He asserted that Moody was attempting to pick his own successor, who would in turn pick his and continue to set up a dynasty of government.

Mr. Ellis reviewed a number of the charges and attacks made against the Fergusons in this race. He discussed their pardon record and the charges made against them. He declared that he has secured pardons under every governor who had held the office since the time of Campbell and that it was his honest opinion that the Ferguson exhibited more deeper concern in regard to the real merits of a pardon for the individual in prison.

Prizes Are Offered in Three Classes of Small Grains—Barley, Wheat and Oats To Be Exhibited.

Expect 800 to 1,000 Teachers for Institute

Between 800 and 1,000 Panhandle teachers are expected to gather here for the teachers institute on September 1, 2 and 3, according to F. E. Savage, superintendent of the training school at the college, who is in charge of the arrangements for the institute. All sessions of the institute which begins Monday morning, September 1, will be held at the West Texas State Teachers College.

Members of the College and training school faculties will have charge of the work in various departments. Miss Ruth Lowes, who recently received her Master's Degree from Columbia University, will have charge of the elementary education section. Dr. Albert Barnett, professor of education, will direct activities in the rural education section.

A special feature of the institute will be the physical education section in charge of Miss Ruth Cross, head of the department of physical education for women at the college. The coming year will find public schools of Texas complying with

Ferguson Rally To Be Held on Square Tonight

According to word received by the news from the Ferguson Campaign headquarters of the Panhandle at Amarillo, there will be a rally held on the court house square here tonight at 8 o'clock.

W. M. Blackburn, who is making the arrangements and who issued the announcement, stated that there would be plenty of fire works and a prominent speaker who would give out statements regarding Moody and Sterling. From all indications the rally will be a stirring one and brings to Canyon the first speaker in interest of the Mrs. Ferguson's race, so far this year.

The general public is invited to come out and hear the issues discussed by the speakers.

General Bobbitt in Address Here Asking for State Office

Robert Lee Bobbitt, attorney-general of Texas, spoke here Friday morning in the interest of his candidacy for election to a full term. General Bobbitt is serving out the unexpired term of Claude Pollard, who resigned from the office last year. He was introduced by Clyde W. Warwick.

General Bobbitt charges that the opponent, Jimmie Alfred of Wichita Falls is sponsoring the cause of Jim and Ma Ferguson. The attorney-general's department is the only department in the state government which has a check upon all departments of state. A friend of the governor's or the proxy governor could overlook a lot of things. On the other hand, should it be so unfortunate that the Fergusons should be returned to power next Saturday, the people need a man in the attorney-general's office who will keep an everlasting vigilance upon the affairs of state.

General Bobbitt is highly pleased with the results of his campaign so far and believes that he will be elected Saturday by a very substantial majority.

THEIVES STRIP CAR

Theives evidently in need of extra equipment proceeded to supply their demands at the misfortune of J. W. Shanklin when they entered his garage Sunday night and partly stripped his Ford coupe. Two wheels and tires, one lens from a front light and the radiator cap were missing. No trace of the guilty ones was found.

The August monthly Trades Day of the Canyon Chamber of Commerce finds the major interest of the day centered around the small grain show. Indications point to a large number of entries in each of the three divisions of the show. First, second and third prizes are to be offered for the best exhibits in Barley, Wheat and Oats.

One gallon quantities are required for each exhibit. Containers for exhibiting the grain will be furnished by the Chamber of Commerce and the County Agent who is assisting in the show.

Exhibits will be placed in the hall on the first floor of the court house. The prizes offered will be cash awards of \$3, \$2, and \$1. Any farmer within the trade territory of Canyon is invited to enter an exhibit of grain in the show.

Attention is called to the fact that the new soil map of Randall county, which was recently sent to County Agent W. H. Upchurch, by the federal government will be on display all day August 25, and there are many who will no doubt find it interesting to study the map. The map may be seen in the County Agent's office any time the office is open but the public in general will be given an opportunity to see it on Trades Day.

Besides the attractions the grain show holds for visitors in Canyon on Trades Day, the merchants of the town have slashed prices to the rock bottom to make a trip to town worth while.

Bargains numerous in every line are to be found here. A thorough canvas of the advertisements in this issue of the News will reveal a large number of the special inducements offered. School days and fall is approaching with the demand for goods of various kinds. Now is the opportune time to take advantage of all your needs at bargains not given before.

Your time will be made worthwhile by coming to Canyon Monday and making a round of the stores and purchasing merchandise in Canyon. Don't fail to attend the grain show and see what can be produced by the farmers, who are your neighbors in the county.

Senator Hardin Here in Interest of Witt's Race

Senator Carl Hardin of Stephenville and Harry Croizer of the Dallas News were in Canyon Tuesday campaigning in the interest of Senator Edgar Witt candidate for the office of Lieutenant Governor.

Senator Hardin took a part in the campaign of Clint Small's race for governor in the first primary, and is at this time making a tour of the Panhandle in the interest of Senator Witt.

He points out that Senator Witt is endorsed almost unanimously by his home people. In McLennan county, his home county, in the first primary he received 10,305 votes, and to all of his six opponents 3,123, the highest vote to any one opponent being 957.

Witt's law firm is one of the leading firms of Central Texas and the citizenship of Waco have practically unanimously endorsed his candidacy, saying to the people of Texas that he is one of Waco's leading citizens and lawyers; that he has represented that district in the State Senate for twelve years; that they vouch for him as a man of integrity and ability and in

Building permits in Canyon neared the \$100,000 mark here this week when two permits amounting to \$8,000 were issued, bringing the year's total to \$99,350.

A permit was issued to Mrs. J. A. Cheatham for the erection of a brick veneer residence at 2006 Sixth Avenue, to cost \$5,000. George Small is the contractor.

Another permit was issued to Clem Freimel for the erection of a stucco residence at 1401 Second Avenue to cost \$3,000.

Mrs. Billy McClure visited her mother, Mrs. Hudgins in Abernathy over the week end.

100 Voters May Lose Votes in Coming Primary

Approximately one hundred voters in Canyon will lose their ballots in the election next Saturday if they are not careful in marking their ballots. Hud Prichard, election judge at the court house box, stated that practically that number makes mistakes in the July primary. The law provides that the judges may use their judgment in determining the intention of the voter. This was possible in the first primary on account of the large number of candidates.

For instance, several voters made a cross in front of the name of the candidate they selected to support. This is wrong.

Other voters put crosses in front of the names of those they did not wish to support, and left the name of the one candidate of their choice. This is wrong.

Texas laws provide that the voter must mark out the names of all candidates whom they do not wish to support.

In the election Saturday there are only two candidates for each office involved in the run-off. There are two candidates for governor.

If the voter wishes to support Ross S. Sterling, a line with a black pencil or black ink MUST BE RUN THROUGH THE NAME OF Miriam A. Ferguson.

On the other hand, if the voter wishes to vote for Mrs. Ferguson, the name of Mr. Ross Sterling MUST BE MARKED THROUGH with a black pencil or pen.

There are many voters coming here from other states which use a cross to designate the selection of the voter. Texas does not use that system. All names must be marked out which the voter does not choose to support.

Mr. Prichard advises those who do not understand, and have not voted often in Texas to ask for information. The judges will give all necessary information.

DON'T LOSE YOUR VOTE SATURDAY THROUGH A MISTAKE.

District Court Is Nearing End of Summer Term

In the final week of the summer term of the District court two divorces have been granted, several cases dismissed, one estate settled and several other cases tried.

Two indictments were returned Monday by the Grand Jury which has been recessed since then and will be until tomorrow. The total number of indictments returned are 14 for this term. One of the indictments returned Monday charged J. W. Howell with theft.

A judgement favoring the plaintiff in the case of S. P. Robinson vs. Mrs. Olive J. Sevall, et al, J. M. Black, C. A. Elder, and T. G. Lair were appointed by the Court to act as commissioners in settlement of the Costley estate.

The case of S. C. McAdams vs. Pannher Oil and Grease Mfg. Co., was dismissed upon motion of the plaintiff and the suit of Lucy Dougherty vs. Roy Lindsey was dismissed by the Court for lack of prosecution. The suit of L. T. Lester against C. V. Duncan was also dismissed by the Court.

A judgement was rendered in favor of the plaintiff in the case of O. W. H. Cook vs. T. M. Parker a suit on a debt in the amount of \$4,908.22. The case of B. T. Forbess, vs. Stone Port National Bank of Nacogdoches, was continued until the next term of court. The suit of W. B. Campbell et al. vs. W. A. Patterson et al. resulted in a judgement in favor of the plaintiffs.

W. S. Nixon was tried Monday upon charge of driving while drunk and found guilty. He was given an 18 months suspended sentence.

A commission suit which was the outgrowth of an alleged breach of promise regarding a land sale consumed most of the day, Wednesday.

Mr. and Mrs. Lee Foster returned Tuesday from Colorado where they have been on a week's vacation trip.

PRIMARY ENDS STRUGGLES ON SATURDAY 23

GOVERNOR'S RACE STILL HOLDS MAJOR INTEREST

Six State, Three County and One Precinct Races Will Be Settled Saturday

Saturday will bring to a close one of the most hotly contested races for the office of governor since the inauguration of the double primary system about a quarter of a century ago. This campaign has been waged between the forces of Ross S. Sterling, Houston capitalist and present chairman of the State Highway commission and the forces of Mrs. Miriam A. Ferguson, Texas' first woman governor, who was defeated four years ago in the race for re-election to a second term by Dan Moody, present governor.

James E. Ferguson, former governor, who was impeached in 1917 and who has figured in most every political fight in Texas during the past 15 years, is directing his wife's campaign. He announced for the office early in the spring, but was refused a place on the ballot because he had been impeached from the office. Immediately following the decision of the State Executive committee of their refusal to allow Ferguson's name to go on the ballot, Mrs. Ferguson became a candidate.

This campaign has found Farmer Jim at his best in his characteristic mud-slinging campaigning. Although he has been counted out of State politics a number of times during recent years his popularity seems to be far from waning as it appeared to be doing four years ago. The bargains sent forth from the Sterling camp have ejected the (Continued on last page.)

Lay First Brick In Paving Today

The first brick in the paving program of Canyon at this time was laid this morning. Workmen began laying brick in the block on Fifteenth street between Fourth and Third Avenues.

The work is being done by C. N. Harrison, local contractor, who holds the contract for the paving of 12 blocks to cost approximately \$30,000. He announced at the time the contract was signed that he would push the work forward with record speed. There has been no delays of any importance since the first work was begun.

SPEAKS FOR BROTHER

Renne Allred, jr., formerly a county and district attorney of Montague county, spoke here tonight on behalf of the candidacy of his brother, Jimmy Allred of Wichita Falls for the office of attorney general of Texas.

Amarillo Men Speak Here for Mrs. Ferguson

O. Ellis and A. M. Fischer, Amarillo attorneys were both speakers at a Ferguson rally held on the east side of the court house Wednesday afternoon, which was presided over by Oscar Smith. A crowd estimated at 150 to 200 gathered before the speaking ended.

Mr. Fischer, unhesitatingly entered upon an attack of the Moody administration. He asserted that Moody was attempting to pick his own successor, who would in turn pick his and continue to set up a dynasty of government.

Mr. Ellis reviewed a number of the charges and attacks made against the Fergusons in this race. He discussed their pardon record and the charges made against them. He declared that he has secured pardons under every governor who had held the office since the time of Campbell and that it was his honest opinion that the Ferguson exhibited more deeper concern in regard to the real merits of a pardon for the individual in prison.

Prizes Are Offered in Three Classes of Small Grains—Barley, Wheat and Oats To Be Exhibited.

Expect 800 to 1,000 Teachers for Institute

Between 800 and 1,000 Panhandle teachers are expected to gather here for the teachers institute on September 1, 2 and 3, according to F. E. Savage, superintendent of the training school at the college, who is in charge of the arrangements for the institute. All sessions of the institute which begins Monday morning, September 1, will be held at the West Texas State Teachers College.

Members of the College and training school faculties will have charge of the work in various departments. Miss Ruth Lowes, who recently received her Master's Degree from Columbia University, will have charge of the elementary education section. Dr. Albert Barnett, professor of education, will direct activities in the rural education section.

A special feature of the institute will be the physical education section in charge of Miss Ruth Cross, head of the department of physical education for women at the college. The coming year will find public schools of Texas complying with (Continued on last page.)

Ferguson Rally To Be Held on Square Tonight

According to word received by the news from the Ferguson Campaign headquarters of the Panhandle at Amarillo, there will be a rally held on the court house square here tonight at 8 o'clock.

W. M. Blackburn, who is making the arrangements and who issued the announcement, stated that there would be plenty of fire works and a prominent speaker who would give out statements regarding Moody and Sterling. From all indications the rally will be a stirring one and brings to Canyon the first speaker in interest of the Mrs. Ferguson's race, so far this year.

The general public is invited to come out and hear the issues discussed by the speakers.

General Bobbitt in Address Here Asking for State Office

Robert Lee Bobbitt, attorney-general of Texas, spoke here Friday morning in the interest of his candidacy for election to a full term. General Bobbitt is serving out the unexpired term of Claude Pollard, who resigned from the office last year. He was introduced by Clyde W. Warlick.

General Bobbitt charges that his opponent, Jimmie Allred of Wichita Falls is sponsoring the cause of Jim and Ma Ferguson. The attorney-general's department is the only department in the state government which has a check upon all departments of state. A friend of the governor's or the proxy governor could overlook a lot of things. On the other hand, should he be so unfortunate that the Fergusons should be returned to power next Saturday, the people need a man in the attorney-general's office who will keep an everlasting vigilance upon the affairs of state.

General Bobbitt is highly pleased with the results of his campaign so far and believes that he will be elected Saturday by a very substantial majority.

THEIVES STRIP CAR

Thieves evidently in need of extra equipment proceeded to supply their demands at the misfortune of J. W. Shanklin when they entered his garage Sunday night and partly stripped his Ford coupe. Two wheels and tires, one lens from a front light and the radiator cap were missing. No trace of the guilty ones was found.

The August monthly Trades Day of the Canyon Chamber of Commerce finds the major interest of the day centered around the small grain show. Indications point to a large number of entries in each of the three divisions of the show. First, second and third prizes are to be offered for the best exhibits in Barley, Wheat and Oats.

One gallon quantities are required for each exhibit. Containers for exhibiting the grain will be furnished by the Chamber of Commerce and the County Agent who is assisting in the show.

Exhibits will be placed in the hall on the first floor of the court house. The prizes offered will be cash awards of \$3, \$2, and \$1. Any farmer within the trade territory of Canyon is invited to enter an exhibit of grain in the show.

Attention is called to the fact that the new soil map of Randall county, which was recently sent to County Agent W. H. Upchurch, by the federal government will be on display all day August 25, and there are many who will no doubt find it interesting to study the map. The map may be seen in the County Agent's office any time the office is open but the public in general will be given an opportunity to see it on Trades Day.

Besides the attractions the grain show holds for visitors in Canyon on Trades Day, the merchants of the town have slashed prices to the rock bottom to make a trip to town worth while.

Bargains numerous in every line are to be found here. A thorough canvass of the advertisements in this issue of the News will reveal a large number of the special inducements offered. School days and fall is approaching with the demand for goods of various kinds. Now is the opportune time to take advantage of all your needs at bargains not given before.

Your time will be made worthwhile by coming to Canyon Monday and making a round of the stores and purchasing merchandise in Canyon. Don't fail to attend the grain show and see what can be produced by the farmers, who are your neighbors in the county.

Senator Hardin Here in Interest of Witt's Race

Senator Carl Hardin of Stephenville and Harry Croizer of the Dallas News were in Canyon Tuesday campaigning in the interest of Senator Edgar Witt candidate for the office of Lieutenant Governor.

Senator Hardin took a part in the campaign of Clint Small's race for governor in the first primary, and is at this time making a tour of the Panhandle in the interest of Senator Witt.

He points out that Senator Witt is endorsed almost unanimously by his home people. In McLennan county, his home county, in the first primary he received 10,305 votes, and to all of his six opponents 3,128, the highest vote to any one opponent being 957.

Witt's law firm is one of the leading firms of Central Texas and the citizenship of Waco have practically unanimously endorsed his candidacy, saying to the people of Texas that he is one of Waco's leading citizens and lawyers; that he has represented that district in the State Senate for twelve years; that they vouch for him as a man of integrity and ability and in (Continued on last page.)

ABSENTEE VOTING HEAVY

The absentee voting in the run-off primary promises to be almost as heavy as it was in the first primary, according to Mrs. Berl Mayfield, county clerk. Forty-nine Randall county voters cast their ballots here before leaving on their vacations last week and the early part of this week. Nine of the number who wrote in for absentee ballots had been returned yesterday.

**THE FINAL DRIVE**

Speakers are visiting every town, city and village in Texas this week in the closing days of the campaign for Governor. The battle of ballots Saturday will see ended one of the fiercest fought campaigns Texas has had in years.

The Sterling followers are jumping on old Jim Ferguson, proxy-governor during his wife's administration, and exposing in no uncertain terms the conduct of public affairs during the two years Ma Ferguson served as chief executive. The Fergusons have promised to pardon 2,000 convicts if elected to office. This puts under obligation to Jim Ferguson friends of every convict in the penitentiary, who will hope that their particular friends will be the one to receive executive clemency. During the last twenty-nine days Mrs. Ferguson was in office as governor, pardons were issued to 124 robbers, 127 liquor law violators, 133 murderers and 39 rapists. During the last three days in office, Ma and Pa Ferguson were extremely busy issuing pardons. One hundred and sixty pardons were issued during those three days, consisting of 35 pardons on liquor charges, 40 robbers, 22 murderers and 10 convicted of criminal assault.

Would Texas see the same conditions again? Jim says so, and no one doubts him.

Ferguson is making all kinds of wild charges against Ross Sterling. Being a rich man, a successful business man, Sterling is charged by the Ferguson followers as being dishonest. His record with the State Highway commission disproves these malicious charges. No man ever connected with the state government of Texas has a better record than does Ross Sterling.

Again during the last few days, Ferguson followers claim that old Jim resigned from office before the impeachment charges were voted upon. This is a mistake. He was impeached and kicked out of office, and can never hold any kind of an office in Texas, not even that of notary public. But to give him the power of governor, through his wife, would be a very great mistake. Jim Ferguson would be governor with no bond, oath of office or restraining powers except his conscience, which has not proven very much of a restraint in the past.

Vote Saturday for honesty in government.

Vote for a man who has been fair and square with his fellow man, and will be fair with all classes of people as chief executive. Such a man is Ross Sterling.

Advertising pays—usually. But someone has pulled a hot one on the musicians of America who are carrying a series of advertisements to combat the talkies. The plea is that 30 musicians have replaced 15,000 or more through the introduction of talkies. The musicians are mistaken if they think the people of America are going to be gratefully wrought up over the inconvenience that the talkies have caused their profession. Modern invention has caused many people to change their profession, but when the public benefits, there is little sympathy for those who are inconvenienced or who have to

change their mode of making a living.

Texas have had a lot of sport with Oklahoma over the Sooner political situation, and had a snicker coming when Alfalfa Bill was nominated Governor last week. Oklahoma will give a long, loud horse-laugh in our general direction if Ma and Pa are nominated next Saturday.

Next Monday is Trades Day in Canyon, and the brand of bargains offered in Canyon will correspond with the brand of weather the Panhandle has been experiencing—red hot. Come to Canyon next Monday and partake of the bargain feast awaiting you.

We have heard a number of voters say that they cannot support either Ferguson or Sterling, and will therefore not vote for either. This is a sad mistake, and a good way to insure the nomination of Ferguson next Saturday.

Vote early Saturday. The ticket is not so long, and will not take so much time to count, but give those holding the election all the time possible Saturday night to make the count.

To hear Jim Ferguson's radio speech, the listener is almost compelled to believe that old Jim is sprouting wings—he has become so good—so quickly.

"Konjola is the best medicine ever made," said Mr. W. T. Bryant, 1009 Morrell street, Oak Cliff, near Dallas. "Neuritis became so severe in my legs that I could scarcely walk. There was a constant aching in my back and shoulders. I could never get a perfect night's rest. My bowels were irregular and I was constantly taking cathartics. I always had a sour stomach, frequent accumulations of gas and severe headaches. My vitality was at a low ebb, and I felt miserable. After giving Konjola a trial I am like a different man. Konjola restored my organs to normal condition and they now function perfectly. I am no longer bothered with indigestion or constipation. The neuritis pains have completely left me and my entire system is in good condition. Konjola deserves all the praise it gets—and more."

When taken for six to eight weeks, Konjola the new and different medicine, will work wonders that will astonish those who suffer from the stubborn ills of the stomach, liver, kidneys and bowels and of rheumatism, neuritis and nervousness.

Konjola is sold in Canyon, Texas, at Jarrett's Drug store, and by all the best druggists in all towns throughout this entire section.

Gooseberry Jelly

For some reason a legendary charm surrounds the gooseberry. It must be because, in English literature, gooseberries are so often served—goose berry fool and gooseberry jam are regularly served at the feasts chronicled in the novels of English writers.

Here are some recipes for preparing gooseberries. In many old New England families there are hereditary recipes for gooseberry cookery. Perhaps you have some good ones of your own. Anyway, these will be found worth adding to any list.

Gooseberry Jam

To every eight pounds or ripe gooseberries, allow one quart of redcurrant juice, five pounds of sugar. Have the fruit gathered in dry weather, and cut off the tops and tails. Prepare one quart of redcurrant jelly, the same as for redcurrant jelly; put it into a preserving pan with the sugar, and keep stirring until the latter is dissolved. Keep boiling for about five minutes skim well, then put in the gooseberries, and let them boil from one-half to three-quarters of an hour; then turn the whole into an earthen crock and let it remain for two days. Boil the jam up again until it looks clear; put it into jars and when cold cover with paraffine and over the jars put tissue paper, brushed over on both sides with a white of an egg, and store away in a dry place. Care must be taken in making this to keep the jam well stirred and well skimmed, to prevent it burning at the bottom of the pan and to have it very clear.

Gooseberry Trifle

Cook a quart of gooseberries to a pulp in water to cover, sweetening to taste. Put the fruit into a serving dish, cool, cover with boiled custard, then with whipped cream. Serve with thin bread and butter.

Peach Ice Cream

Peach ice cream is nowadays often served in the half or a ripe muskmelon, and the combination is delicious. The addition of whipped

cream, candied fruits or pineapple syrup, however—an addition tried by some chefs for the sake of variety—turns a really dainty dish into one that is quite unpalatable in its richness and strange medley of flavor.

Peach Ice

Peel a dozen ripe peaches. Cook until nearly soft in thin syrup to cover, remove the stones, and rub through a sieve. Add the juice of a lemon, three cups of water, a few drops of almond extract, and, if required, add a little more sugar. Freeze adding the unbeaten whites of one or two eggs if desired.

The Doctor Knows

We happened to be present a few days ago when a local physician was asked what, in his opinion, contributes mostly to illness during the summer months. The medical man did not hesitate in giving his answer. "Over eating" was his reply. He explained that the system is not in condition to properly assimilate heavy meats, or a big quantity of grease in summer as in winter. The digestive organs function better on vegetables and lighter meats, like chicken and fish, in summertime, he said. But, he explained, too many people believe that to sustain strength they must eat as liberally of beef and pork in hot weather as they do in cold. The result is such foods serve to increase body

temperatures by heating the blood, the system is weakened, and illness results. "Too many people dig their graves with their teeth" the doctor asserted. And his statement is worth studying over, now that hot days are here in earnest.

KONJOLA ENDS NEURITIS AND STOMACH PAINSGrateful Man Eager To Endorse
Famed Medicine That Did So
Much For Him**MR. W. T. BRYANT**

"Konjola is the best medicine ever made," said Mr. W. T. Bryant, 1009 Morrell street, Oak Cliff, near Dallas. "Neuritis became so severe in my legs that I could scarcely walk. There was a constant aching in my back and shoulders. I could never get a perfect night's rest. My bowels were irregular and I was constantly taking cathartics. I always had a sour stomach, frequent accumulations of gas and severe headaches. My vitality was at a low ebb, and I felt miserable. After giving Konjola a trial I am like a different man. Konjola restored my organs to normal condition and they now function perfectly. I am no longer bothered with indigestion or constipation. The neuritis pains have completely left me and my entire system is in good condition. Konjola deserves all the praise it gets—and more."

When taken for six to eight weeks, Konjola the new and different medicine, will work wonders that will astonish those who suffer from the stubborn ills of the stomach, liver, kidneys and bowels and of rheumatism, neuritis and nervousness.

Konjola is sold in Canyon, Texas, at Jarrett's Drug store, and by all the best druggists in all towns throughout this entire section.

Gooseberry Jelly

For some reason a legendary charm surrounds the gooseberry. It must be because, in English literature, gooseberries are so often served—goose berry fool and gooseberry jam are regularly served at the feasts chronicled in the novels of English writers.

Here are some recipes for preparing gooseberries. In many old New England families there are hereditary recipes for gooseberry cookery. Perhaps you have some good ones of your own. Anyway, these will be found worth adding to any list.

Gooseberry Jam

To every eight pounds or ripe gooseberries, allow one quart of redcurrant juice, five pounds of sugar. Have the fruit gathered in dry weather, and cut off the tops and tails. Prepare one quart of redcurrant jelly; put it into a preserving pan with the sugar, and keep stirring until the latter is dissolved. Keep boiling for about five minutes skim well, then put in the gooseberries, and let them boil from one-half to three-quarters of an hour; then turn the whole into an earthen crock and let it remain for two days. Boil the jam up again until it looks clear; put it into jars and when cold cover with paraffine and over the jars put tissue paper, brushed over on both sides with a white of an egg, and store away in a dry place. Care must be taken in making this to keep the jam well stirred and well skimmed, to prevent it burning at the bottom of the pan and to have it very clear.

Gooseberry Trifle

Cook a quart of gooseberries to a pulp in water to cover, sweetening to taste. Put the fruit into a serving dish, cool, cover with boiled custard, then with whipped cream. Serve with thin bread and butter.

Peach Ice Cream

Peach ice cream is nowadays often served in the half or a ripe muskmelon, and the combination is delicious. The addition of whipped

cream, candied fruits or pineapple syrup, however—an addition tried by some chefs for the sake of variety—turns a really dainty dish into one that is quite unpalatable in its richness and strange medley of flavor.

Peach Ice

Peel a dozen ripe peaches. Cook until nearly soft in thin syrup to cover, remove the stones, and rub through a sieve. Add the juice of a lemon, three cups of water, a few drops of almond extract, and, if required, add a little more sugar. Freeze adding the unbeaten whites of one or two eggs if desired.

The Doctor Knows

We happened to be present a few days ago when a local physician was asked what, in his opinion, contributes mostly to illness during the summer months. The medical man did not hesitate in giving his answer. "Over eating" was his reply. He explained that the system is not in condition to properly assimilate heavy meats, or a big quantity of grease in summer as in winter. The digestive organs function better on vegetables and lighter meats, like chicken and fish, in summertime, he said. But, he explained, too many people believe that to sustain strength they must eat as liberally of beef and pork in hot weather as they do in cold. The result is such foods serve to increase body

temperatures by heating the blood, the system is weakened, and illness results. "Too many people dig their graves with their teeth" the doctor asserted. And his statement is worth studying over, now that hot days are here in earnest.

ANOTHER FAMOUS 14 POINTS

... DEVELOPED FROM MORE THAN 10 THOUSAND OBSERVATIONS DURING THE PIKE'S PEAK TEST, NOW BECOME YOUR GUIDE WHEN BUYING MOTOR OIL

Technical Report and Certificate of Performance . . . Certified Test No. 2268 Summary of Results

It should be understood that statements made herein are applicable only to tests made under the supervision of the American Automobile Association Contest Board between September 6 and October 5, 1929, over the Pike's Peak Automobile Highway and Colorado Springs and Cañon Road, and the conditions stated, except in so far as the legitimate inferences might be extended.

In consideration of the readings, progress reports, calculations, analyses and general data submitted and attested to by the official representatives of the Contest Board, and in further consideration of the strict compliance of the automobile with the various regulations, we do certify to the statements made herein.

Free booklet, "Pike's Peak Tests Confirm CONOCO'S Challenge." Even you complete details of these unusual, fact-finding tests. Ask for it at any CONOCO station or the stations of CONOCO dealers.

Between September 6 and October 5, 1929, three popular nationally known brands of motor oil were tested side by side with CONOCO Germ-Processed oil on Pike's Peak under the supervision of the American Automobile Association Contest Board.

The Board's findings have been expressed briefly in the "fourteen points" below.

1 That the test procedure was followed accurately and that no deviation therefrom occurred which might seriously affect the soundness of any conclusions based upon the data;

2 That a reduction in the rate of wear occurring during the use of CONOCO Germ-Processed Motor Oil over that occurring with the other oils used to the extent of 76.4 per cent was shown during these tests;

3 That greater stability of the subject oil during these tests was shown by records of examination of drained oils being nearer the viscosity of the original or fresh oil and by chemical tests of drained oils with the fresh oils;

4 That frictional temperatures occurring during the use of the subject oil were lower than temperatures occurring during the use of the comparables;

5 That higher compression pressures were obtained with the use of the subject oil during these tests than with the use of other oils. It would be directly inferred that this was caused by better ring seal;

6 That using the subject oil and during each test, greater gasoline mileage for economy was obtained than during the use of the comparables;

7 That less oil consumption as shown by the records of these tests occurred with the use of the subject oil;

8 That carbon deposits collected from the combustion chambers and cylinder heads and weighed by the official chemist were shown

by the records of the test to be less after the use of the subject oil than after the use of the comparables;

9 That the subject oil showed a reduction in the case of crank-case dilution during these tests;

10 That during these tests the subject oil showed improved compression pressure, decreased rate of crank-case dilution and decreased gasoline consumption, indicating an improved ring seal;

11 That a reduction in the operating fuel and oil cost occurring during these tests with the use of the subject oil is substantiated by the records;

12 That with the use of the subject oil there occurred less deviation from cycle to cycle in compression pressure at starting speeds (as shown by the records) would indicate that improved compression at higher speeds might have occurred during these tests;

13 That the reduction in the rate of wear occurring during these tests with the use of the subject oil as shown by the records would indicate a longer motor life;

14 That while there is no reason to suppose that results similar to those of this test would not show under other conditions, it is important that references to these findings be accompanied by the statement that, in so far as the report is concerned, they cannot, as conclusions, be extended generally. However, the inference that they might be so is reasonable and rational, although not conclusive.

Tweed Weaves to Feature Fall Suits

WITH STYLES MORE FEMININE, HARRIET RECOMMENDS SPORTS TYPE SUITS AS FIRST CHOICE FOR AUTUMN WEAR

BY HARRIET

STRIPES and checks will usher in the autumn days. Most of them are tweeds in a new, soft weave.

Browns, soft, rich bluish greens, black and white and all of the rust tones of red are very becoming.

For your first suit, you cannot go wrong picking a sports type. They are always good. And this winter, when most styles will be more feminine, there will be a certain zest in a tailored sports outfit.

Quite new is the sports suit with coat that comes clear down to the bottom of the hem. Such a coat can be used with other dresses to have a change of outfit.

So far as the dresses are concerned, there are several things to note. All are belted. Most of them have fullness in the skirts. The dress with a light top is newer and smarter than the one without.

One of the smartest outfits is a soft brown tweed, trimmed with a brown and yellow shepherd's plaid collar and lining. The coat is strictly tailored, with a few stitched darts at the waistline to ease it from being a straightline. It has a self-belt that fastens in front while the coat pulls over to the side.

Under this is a cute shepherd's plaid dress in the same colors, brown and yellow. It has a jaunty little bolero effect and its sleeves have deep cuffs coming out from under the rather flaring tops, like boleros themselves.

The skirt of this frock has a pleated flounce all around it, of the material running diagonally. It is most decorative and gives a jaunty originality to the frock. It is belted in yellow.

A typical autumn sports hat is the brown brimmed hat, with facing of yellow and banding of the same. Chamois gloves and a brown purse are good with this suit.

Quite a different type of sports suit is the Worth model in brown and pink. It has one of those light-topped frocks, this one

A smart sports outfit for fall is the soft, brown tweed, left, trimmed with a color of contrasting tweed. It has a self-belt fastening in front. A different type sports suit is the Worth model, right, in brown and pink. An unusual feature of the coat is its inverted pleats which flare toward the bottom to give fullness.

with pink jersey fashioning the top of the waist and all of the sleeves, except the cuffs, which are of the tweed.

The frock of tweed is made using the goods horizontally, while the coat, which does not fasten shut but is belted and left open, is made with it running vertically. The coat has several new features.

On the sides are inverted pleats which flare towards the bottom to give fullness. Down the back, below a stitched yoke, is an inverted pleat which flares from the belt

down. The collar is made in one with the front facings, and has a separate little piece which curves upward, giving the appearance of an upturned collar. It is an intriguing little touch, quite in keeping with the new mode that grows fanciful and coquettish.

The hat with this is of stitched brown felt. Suede shoes complete the outfit. There is a belt of brown leather, but it may be belted with its own material if one is not quite so slender as she should be. A shiny belt would be likely to emphasize this.

Local Company Returns from Camp Palacios

Members of Company F. of the 142nd Infantry returned home Sunday, reaching Canyon about noon, from Camp Palacios where they had been for the annual two-weeks encampment of the Texas National Guard.

While at camp company F. was the color company of the division. They made splendid showings in all of their activities and all members reported a splendid trip.

Company F. claims the highest number of college students and graduates of any company in the Texas National Guard. Captain William E. Lockhart commander of the company, is an instructor in the West Texas State Teachers College. First Lieutenant Thomas H. MacDonald is a graduate of the College and Second Lieutenant Corsey B. Sheppard is doing advanced college work.

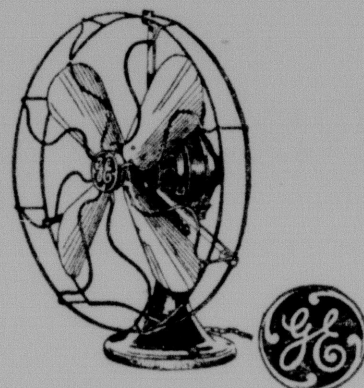

Eight non-commissioned officers of Company F. are college students, or graduates. Some of them come from military schools.

Fifteen enlisted men, of the company, are college men, some being graduates.

This may account for the fact that the company ranks high among the best companies of the Guard, despite the fact that twenty-five recruits were enlisted only a short time ago.

Dairymen Held Big Barbecue at Upchurch Farm

More than 500 dairymen, their families and invited guests gathered at the J. P. Upchurch farm, in the Palo Duro canyons, eight miles northeast of town Friday for a big barbecue feast spread by the Randall County Dairymen's association. The day was one of general get-together and was spent by making a good time chatting and visiting with friends and neighbors.

One goat, one lamb and three calves were barbecued by John Snyder, barbecue king of the Panhandle. Barbecue, pickles, sauces, buns, coffee, lemonade, cakes, pies and other good picnic foods were served to the large crowd present.

Following the barbecue feed, ice cream was served by the Steffen's Ice Cream company of Amarillo. T. C. Thompson of Canyon treated the kiddies with large juicy peaches. One 150-pound barbecued calf remained untouched after the crowd had been served and following a conference among members of the association who were called together by M. H. Rockwell, president of the group, it was decided that the meat would be donated to the Orphans Home of Amarillo. There was no set program for the day in the way of entertainment. T. C. Thompson, of the Thompson Hardware Company of Canyon, made a short talk before lunch was served, in response to a welcome message from the president of the association. An impromptu baseball game furnished amusement and entertainment in the afternoon.

ST. PAUL'S LUTHERAN CHURCH 5 Miles East

St. Paul's Lutheran Church will celebrate its annual mission-festival next Sunday. On this occasion the hearers are especially reminded of Christ's command to do mission work. "Preach the Gospel to every creature" is the divine command given to the Church. Opportunities for the Church to do mission work are great in our own country and abroad. Hence the Church and each individual Christian should grasp every opportunity to save the lost and stray away souls by doing mission work. There is but one great reason why the world still stands today. It stands for the cause of the Gospel, for the saving of souls by the preaching of the Gospel. Read Mark 13, 5-10.

Two services will be held Sunday. The morning services, beginning at 11 a. m., will be conducted in the German language. The afternoon services, beginning at 3 o'clock, will be held in the English language. The Rev. M. Scaer of Wilson will preach the sermons. A large gathering is expected. All visitors are welcome.

The shading will be under the huge shade trees in Mr. Dolcators' grove near the canyons. Dinner and lunch will be served by the ladies of the congregation.

Girl's Summer Camp Has Record Enrollment, 80

The Northwest Texas Girls' camp which opened last week at the Methodist encampment grounds in the Ceta Canyons, for their annual summer encampment will close on August 26. The enrollment of 80 girls in the camp this year is the largest in its history. More towns in the Panhandle are represented than at any time before.

Dressed in camp uniform the well-organized groups enjoy a varied program of activities, from a dip in the pool early each morning until the closing of the day when vesper services are held in the open. Camp fires, hikes, dramatics and platform hours are included in the program. Miss May Wess Bell of Wellington, a student of the Scarrett college, Nashville, Tennessee, brings the inspirational messages.

The girls are present from Plainview, Amarillo, Memphis, Shamrock, Vega, Colorado, Snyder, Abilene, Westbrook, Dunn, O'Donnell, Lamesa, Quanah, Heald, Canyon, Hereford, Lockney, Sudan, Fort Worth and Birmingham, Ala. Camp directors include Mrs. C. L. Clements of Shamrock, conference superintendent of Young People; Verna Crump of Memphis, executive secretary, who is also chairman of court of honor. Violet Combs of Abilene, who supervises morning devotional and vespers, and Mrs. T. C. Delaney, manager. These officials are assisted by Grace Potts of Abilene, who directs swimming, games and archery; Janice Clonts of Fort Worth, nature study, also has charge of flag ceremony; Bernice Ramsey of Westbrook is supervisor of the committees who have the grounds in charge and the inspectors announce the camp above par in its appearance and cleanliness.

To Boarding House Keepers

The Teachers Institute will convene in Canyon during the three days, September 1, 2 and 3. About 800 persons are expected to attend this institute. The committee in charge of finding boarding places for these visitors is asking boarding house keepers interested to write a short letter giving the following information:

1. Number of persons wanted—men, women or both.
2. State whether room, board, or both will be given.
3. State whether modern conveniences will be furnished.
4. Give address—street, number and telephone.

For the information of boarding house keepers will say that the state dormitories will furnish room and board for the three days for \$5.00. Lodging for a part of the three days will have to be solved by each boarding house keeper according to circumstances.

Address all communications to W. L. Vaughn, Box 183, Canyon, Texas. Please do not telephone. Signed, Boarding House Committee.

WOES OF A PREACHER

Perceiving the difficulty of pleasing all the members of his flock, and reflecting upon the criticisms which he had long endured, the Rev. Basil Matthews, vicar of Holy Trinity Church, London, voiced his lamentations recently in a rather humorous vein, in part as follows: "Be he (the minister) grave in his demeanor, seeking to uphold the dignity of his cloth, he is said to be standoffish and upish; yea, the ungodly call him 'Holy Joe'."

"So then he trieth to be gay, but this, too, displeaseth some. "With young men and maidens, if from them he hold aloof, they dislike him much. So that when they should turn to him as a friend, with them he cutteth no ice."

"If he exhorteth all men to abstain from strong drink, he is said to be a killjoy, and inhuman. But if he entereth a tavern and putteth his foot upon the rail of brass, there be those who say, 'Behold a winebibber.' So when he bloweth froth he committeth iniquity, and when he bloweth it not he is likewise a sinner."

"Let the servant therefore walk in the steps of his Master, and care nought for the opinion of men."

Another difficult thing for some men to understand who owe big grocery bills is why the grocer always happens to step to the front door just as they stop at the filling station to pay cash for gas.

Rotary Spreads Its Influence to All Parts of World

A final report on the 25th Anniversary of Rotary was given Tuesday at the Luncheon by Clyde W. Warwick, who attended as a delegate from the Canyon club. He read in full the address of Harry Rogers, former president of Rotary International and a former citizen of San Antonio. Mr. Rogers explained the progress which had been made by Rotary since its founding twenty-five years ago in Chicago by Paul Harris.

During the past 25 years, Rotary has been extended into 65 nations of the world, and has gathered a membership of 165,000 business and professional men who are interested in civic improvements in their own communities, and in world peace. Rotary is the only agency among business and professional men which is looking toward, and working for world peace.

Senator Carl Hardin of Stephenville and Harry Crozier of the Dallas News made short talks.

Visiting Rotarians were: C. O. Akard of Littlefield; Gaines Whitsett, H. G. Persons and Ed Enochs of Amarillo.

KNOW TEXAS

Texas cotton acreage for 1930 is estimated at 17,500,000. Corn with 4,896,000 acres is in second place. Wheat 2,520,000 and oats 1,833,000 follow in the order given. Seventeen towns in the Rio Grande Valley had 37,227 population in 1920 and 92,784 in 1930, average gain of 149.2 per cent.

Texas has thirty-six towns and cities of more than 10,000 population. Seven of them are newcomers in the list and one of them had only 987 inhabitants ten years ago.

Texas has three electrically lighted baseball parks for night games—Houston, Waco and San Antonio. In the United States 38 cities are playing night baseball.

A. L. Clifton and Harper Clifton of Dallas were guests of Miss Patsy Van Dyke Wednesday of this week. Buford Moss of White Deer transacted business and visited friends in Canyon Monday.

Mrs. Bonnie Gauden of Fort Worth is a visitor in the home of Mr. and Mrs. J. W. Prichard of this city.

Mr. and Mrs. Milton Anderson have as their guests this week, his mother, Mrs. J. F. Carpenter of Muskogee, Okla., and his brother, H. T. Anderson and wife of Clayton, N. M.

Miss Dannie Mack Stewart visited her sister, Mrs. Horace Lindley, of Tulsa Wednesday and Thursday. S. B. McClure and son, Billy, visited in Amarillo Sunday.

WOES OF A PREACHER

Perceiving the difficulty of pleasing all the members of his flock, and reflecting upon the criticisms which he had long endured, the Rev. Basil Matthews, vicar of Holy Trinity Church, London, voiced his lamentations recently in a rather humorous vein, in part as follows: "Be he (the minister) grave in his demeanor, seeking to uphold the dignity of his cloth, he is said to be standoffish and upish; yea, the ungodly call him 'Holy Joe'."

"So then he trieth to be gay, but this, too, displeaseth some."

"With young men and maidens, if from them he hold aloof, they dislike him much. So that when they should turn to him as a friend, with them he cutteth no ice."

"If he exhorteth all men to abstain from strong drink, he is said to be a killjoy, and inhuman. But if he entereth a tavern and putteth his foot upon the rail of brass, there be those who say, 'Behold a winebibber.' So when he bloweth froth he committeth iniquity, and when he bloweth it not he is likewise a sinner."

"Let the servant therefore walk in the steps of his Master, and care nought for the opinion of men."

Another difficult thing for some men to understand who owe big grocery bills is why the grocer always happens to step to the front door just as they stop at the filling station to pay cash for gas.

Rotary Spreads Its Influence to All Parts of World

A final report on the 25th Anniversary of Rotary was given Tuesday at the Luncheon by Clyde W. Warwick, who attended as a delegate from the Canyon club. He read in full the address of Harry Rogers, former president of Rotary International and a former citizen of San Antonio. Mr. Rogers explained the progress which had been made by Rotary since its founding twenty-five years ago in Chicago by Paul Harris.

During the past 25 years, Rotary has been extended into 65 nations of the world, and has gathered a membership of 165,000 business and professional men who are interested in civic improvements in their own communities, and in world peace. Rotary is the only agency among business and professional men which is looking toward, and working for world peace.

Senator Carl Hardin of Stephenville and Harry Crozier of the Dallas News made short talks.

Visiting Rotarians were: C. O. Akard of Littlefield; Gaines Whitsett, H. G. Persons and Ed Enoch of Amarillo.

WILL PREACH SUNDAY

Rev. George Slover of Amarillo will preach Sunday morning at the local Methodist church. W. L. Vaughan will talk at the Sunday night services.

Rev. C. E. Jameson is in Bushland conducting a revival meeting with Hubert Thompson.

KNOW TEXAS

Texas cotton acreage for 1930 is estimated at 17,500,000. Corn with 4,896,000 acres is in second place. Wheat 2,520,000 and oats 1,833,000 follow in the order given. Seventeen towns in the Rio Grande Valley had 37,227 population in 1920 and 92,784 in 1930, average gain of 149.2 per cent.

Texas has thirty-six towns and cities of more than 10,000 population. Seven of them are newcomers in the list and one of them had only 987 inhabitants ten years ago.

Texas has three electrically lighted baseball parks for night games—Houston, Waco and San Antonio. In the United States 38 cities are playing night baseball.

To the Voters of Randall County:

Owing to the duties of my office in connection with the District Court, it has been impossible for me to see many of the voters during the run-off campaign. I regret this very much, but wish to express my appreciation for the good vote given me in the July primary, and trust that I may receive your support in the second primary, Saturday.

I feel that with my experience in office during the past I shall be able to make you a very much better County Attorney during the coming term than I have in the past.

I shall greatly appreciate your vote next Saturday.

If you have many of these symptoms, have taken all kinds of medicine, and are still sick, I especially want YOU to write for my FREE booklet, questionnaire, and diagnosis.

W. C. Rountree, M. D., BOX 1150
Dept. 18-A, Austin, Texas

Speaking of absent-mindedness, how about the young physician who in courting a girl forgot and charged her two dollars a visit?

Before the political hum-drum gets started this week allow me to tender my thanks to the Randall County Dairymen for the fine barbecue dinner to which I was served last Friday. I ain't much of a dairyman but I sure do like good barbecue.

Now, folks the dairymen sure know their stuff when they go to throw a real feed. T. C. Thompson can vouch for that fact. I am sure. In fact, I know of a bank hand, two barbers and a grocery man who can verify the fact also.

There was nothing omitted that would make the barbecue a success. The dairymen are not self-centered either. They plan for good times among their friends and their families, but they do not forget others. One calf that weighed 150 pounds before it was placed on the barbecue pit was not touched by the large crowd that gathered at the feast. After a bit of discussion by members of the association it was decided that the barbecued calf would be donated to the orphans home in Amarillo. This I

must say is a very, very commendable act on their part.

During the past few days I have been taking a straw vote among the crowds in regards to the governor's race. The other day I walked up to the young squirt in the back shop and said, "Who is your choice for governor?"

He replied by saying, "Alfalfa Bill, of course."

Susie the Officer Flapper has changed from fortune tellers to the stars. Oh my, oh dear.

Well, anyway the politicians lost out while the Payne case was at its height of excitement. Folks forgot to talk about politics.

Texas won't have any laugh at Oklahoma when we get Sterling elected. Alfalfa Bill says, "Heck no, I won't need the governor's mansion, I'll rent it out and live in the garage." Big boss Ross will say, "Fiddlesticks, I can't step down to the governor's mansion, I've got to have a house with 22 bathtubs."

It seems like the bathtubs come in for a bit of political discussion in campaigns these days. In Oklahoma it was charged that the successful candidate didn't take enough baths and in Texas they are declaring one man has too many bathtubs.

I overheard a candidate running for office talking with a voter the other day. The candidate was seeking his vote and the man turned around and said, "how many bathtubs have you?"

The old Ford, that was made in the year '03, that is seen on the streets these days creates almost as much attention and excitement as it did the first time it ever went down the streets years ago.

This hot weather and hot politics combined are driving me daffy. Here's a bit of poetry to prove it. There once was a young politician, Who had some lofty ambitions, But during his campaign, He was heard to exclaim, "What this country needs ish, (hie) Prohibition."

It looks like the East side of the square is going to be a new place before long. With all the changes going on and the new brick besides the painting of building fronts that has been taking place lately.

Ed Mickel says that he may never be a champion but he believed that if he had spent as much time on the golf course as Vince Reeves has during the last 25 years that he would be playing in some of the national meets.

Of course, I don't know as I can vouch for all that Ed says or not. But anyway Vince has played so much he don't feel like he is dressed up unless he has on a pair of golf knickers.

Speaking of golf knickers I am reminded of a definition of them that I heard the other day. "They look like girls' old fashioned basket ball bloomers." If golf knickers are essential to the game I fear that my career as a golfer is nipped in the bud already.

It was at the breakfast table the other morning that I said to the Madam, "Don't make any more of those biscuits dear."

"Why," she asked, "Because," I replied, "you are too delicate for such heavy work."

There is a great hue and cry about hard times, but so far as yet I haven't noticed a grand reduction in anything that I buy to eat and wear and I haven't heard of a gigantic reduction in the price of house rent.

Carl Coffee returned Monday from Clayton, N. Mex., where he has been working the past month.

Travis Shaw entertained the "sweet sixteen" size at Lonehurst last night. Taking into consideration the gracious hospitality of the host and the happy age of the participants, it is needless to say that the common verdict is "immense."

Railroad business in behalf of the people of Randall county generally, has delayed the News one day this week.

Another fair rain in town last Saturday night.

From all indications, it seems now a cinch that the railroad will go south from here via Tulla and Plainview, and that the work will be pushed so as to complete the road as far as Plainview by January 1907.

Born to Mr. and Mrs. John Rogers, on the tenth, a fine girl, Pat Young, family and visiting

friends spent Tuesday of this week on the canyons.

Arthur Cox, Frank Lester and Marry Howell have returned from their hunting and fishing trip on the canyons. Had a good time but killed no bear.

Miss Pearl Gilliam desires her friends to know that she will return here to teach music when school begins.

Prof. Ernsberger and wife returned home Friday from Nashville, Tenn.

Jack Cavett is the happy father of another fine boy, born Tuesday.

A wedding, one of the contracting parties to which is well-known in town, is slated for Sunday. No joke this time.

There was a time when a mother would intervene if her daughters scrapped about each other's clothes. Nowadays she's usually mixed up in the argument herself.

Now that General Motor is selling radios in addition to all its other products it might as well put on razor blades, toothpaste and a good, reliable hair-grower so as to make its line complete.

Faculty Play "The First Year," Is Given Thursday and Friday

Drama of Married Life Directed
By Goodman Proves Great Success

"The First Year," three act comedy drama of the first year of married life, was presented Thursday and Friday nights by members of the W. T. faculty under the direction of Miss Novella Goodman in the Education building auditorium. The leading role, that of the young husband Tommy Tucker, was played by C. W. Batchelder, Lenore Edwards playing opposite as his wife. The curtain rose on the first act promptly at 8:15 both nights.

played by Montie Rockwell, both of whom are students in the college, taking special dramatic courses.

All of the work done in the play was of the highest quality. The plot of the drama is recognized as being developed on the familiar triangle, but it has been given a newer, a fresher treatment in style and tone, a difference which showed to the best advantage through the splendid interpretative work of those who presented it Thursday and Friday. The story runs swiftly from the girl's, Grace Livingston's decision to marry the unromantic real estate man, Tommy Tucker, instead of the romantic but less generous engineer, Dick Loring, through the months to a night in the eleventh when Tommy, on the point of putting over a big land deal with the railroad right-of-way agent, has not only his hopes of fortune, but his domestic happiness as well, smashed by the uncalculated and unfriendly interference of the romantic Mr. Loring. Follows Tommy's despair, his desperate drinking, and the scene in which between his coughs he closes the deal with Barstow the agent, for \$25,000 more than the first mentioned sum. After which comes, at first uncertainly, then quite suddenly, the reconciliation of husband and wife, Tommy in the meantime, having "had it out" with Dick in the middle of the Livingston's parlor floor.

The characters of Tommy Tucker and Grace, his wife, as portrayed by Mr. Batchelder and Miss Edwards were intriguingly whimsical and humorous. In their acting those present had the opportunity of seeing at work ones who knew "how to put it over." Miss Edwards work was outstanding for its excellence in sympathetic response to other characters on the stage, and her unusual line interpretation. Mr. Batchelder played a role astonishingly well suited to his talents in the part of the inimitable Tommy Tucker. Though the make-up was straight, this part is technically a character role, and was presented by Mr. Batchelder with maximum effectiveness in humor, sympathy, and straight characterization. His "drunk" scene will long be remembered in W. T. dramatic circles as superb.

The role of the egotistical, villainous Mr. Richard Loring was played by Horace Morelock of the English department. Again in his acting those present had the opportunity of seeing excellent character interpretation, and good acting.

The roles of Grace's mother and father, who were living evidence of the fact that married people do survive "the first year" if they know how to go about it, were played by Carl York, high school coach, and Helen White Moore of the English department. The parts were radically different from a technical standpoint, that of the father being a character role, and that of the mother a straight role, but in degree of effective and sympathetic acting there was no difference. Both were thoroughly typical.

A bit of the most unique work of the play was done by Mrs. Tommie S. Montfort in the role of Mrs. Barstow, wife of the railroad right-of-way agent. Hers was a character calling for a degree of worldly sophistication, hard for one of Mrs. Montfort's nature and training to attain in the brief time of practices. But observers forget that Mrs. Montfort does

not smoke, that she does not make catty remarks about a person's social standing; for the person on the stage was not Mrs. Montfort, she was Mrs. Peter Barstow, and Mrs. Barstow very definitely did those things. The role of Mr. Barstow was played by John A. Gillis of the manual training department faculty. His was a straight part, well done.

The most individual character work done in "The First Year" was that done by Montie Rockwell in the role of Hattie, the maid. Typical of small town hired girls, at least those in Joplin, Missouri, Hattie delighted the audience. Montie's interpretation of this character was undeniably excellent.

"The First Year" was given as the last lyceum number, all those not possessing student activity tickets being admitted on a charge of fifty cents, the second night of the performance.

Six Volume Set of Books on W. Wilson Added to Library

Through the efforts of members of the history department a complete six-volume set of the Public Works of Woodrow Wilson compiled from papers given by Mrs. Wilson to Ray Stannard Baker, professor of history in Princeton University after the president's death, has been added to the shelves of the W. T. library.

These books are of especial value to students of history, and of immense interest to all who are concerned with the economic, civic, and social progress of the nations of the world. Wilson was the most progressive administrator that the United States had, or has had, for a long period. He stands out in the history of America and of the world as the man who advocated a policy of international peace unequalled in history; he was the "peace president." During his administration Woodrow Wilson's work took the form of progressive legislation unparalleled by any former president, though it had been begun and pursued in 1901 by Theodore Roosevelt, and, with slightly less vigor, by Taft in 1908.

The set of books just received bears the names of Baker and Dood, as co-authors. The authenticity of their content is, of course, unquestionable. Two of the volumes are entitled "The New Democracy" and are accounts of the speeches made by President Wilson while he was in office. Of the other four books, two are entitled "College and State," and two "War and Peace." All are interesting and valuable from viewpoints of the historian, educator, or the economist.

The addition of this set gives to our library quite a "shelf of Wilsonia." Already the list included "Life of Woodrow Wilson," by Daniels, former Secretary of War, from North Carolina; "The Peace President," by William Archer; "Woodrow Wilson and his Works," by Dodd; "President Wilson's State Papers and Addresses," "The Foreign Policy of Woodrow Wilson," by Robinson; "Woodrow Wilson and the World War," by Charles Seymour; "Woodrow Wilson the Man: His Time and His Task," by William Allen White; "Wilson and the Issues," by Creel; and a volume by Seymour called "Intimate Papers of Colonel House," which, because of the close relationship which always existed between House and the president, takes its place as one of the sources of material on Wilson.

HILL SPEAKS TO ASSEMBLY AT CHAPEL SAT.

SUBJECT OF ADDRESS TO STUDENTS IS "MODERN EDUCATION;" STRESSES WAYS OF OBTAINING IT.

President Hill spoke to the assembly Saturday morning at the chapel hour on the subject of Modern Education, and the modern means of obtaining it.

In opening his discussion President Hill referred to the value of assembly periods in education today. He expressed the idea that a "center of talk," while being in itself a definite problem, is helpful in solving others, because human contacts are essential to a broad education.

Education today, as brought out by Mr. Hill Saturday, is complex. "It is no longer the big problem," says Mr. Hill, "to teach children to get knowledge. It is common to see big men—educated men—who have attended school very little. Schools today are reaching more people than ever before, but there are many other things entering into the education of the modern boy and girl."

Those other things, Mr. Hill says, are the outgrowths of the machine and scientific age in which we are living. "Our technological intelligence is coming to determine our social intelligence." He emphasized the fact that this machine age may change from a blessing into a curse, in that such fast living puts a tremendous strain on the "nerve fiber and moral fiber" of the individual. Out of this situation has grown the problem of making the child who is to be the later citizen, quieter in emotions and feeling, and giving him a constructive philosophy of life. The success of the solution of this problem will undoubtedly show itself in the social life of the world.

In closing, President Hill pointed out that the biggest problem of all is putting ourselves in the other man's place. "Until we do that, we can not have a peaceful citizenship, shall not have a restful nation."

"A GOOD caddie is a gem to a poor golfer," says a writer. A sort of diamond in the rough.—The Passing Show.

Faculty Play "The First Year," Is Given Thursday and Friday

Drama of Married Life Directed
By Goodman Proves Great Success

"The First Year," three act comedy drama of the first year of married life, was presented Thursday and Friday nights by members of the W. T. faculty under the direction of Miss Novella Goodman in the Education building auditorium. The leading role, that of the young husband Tommy Tucker, was played by C. W. Batchelder, Lenore Edwards playing opposite as his wife. The curtain rose on the first act promptly at 8:15 both nights.

All roles in the production were played by faculty members with the exception of the leading lady, Lenore Edwards, and the maid,

played by Montie Rockwell, both of whom are students in the college, taking special dramatic courses.

All of the work done in the play was of the highest quality. The plot of the drama is recognized as being developed on the familiar triangle, but it has been given a newer, a fresher treatment in style and tone, a difference which showed to the best advantage through the splendid interpretative work of those who presented it Thursday and Friday. The story runs swiftly from the girl's, Grace Livingston's decision to marry the unromantic real estate man, Tommy Tucker, instead of the romantic but less generous engineer, Dick Loring, through the months to a night in the eleventh when Tommy, on the point of putting over a big land deal with the railroad right-of-way agent, has not only his hopes of fortune, but his domestic happiness as well, smashed by the uncalled for and unfriendly interference of the romantic Mr. Loring. Follows Tommy's despair, his desperate drinking, and the scene in which between his coughs he closes the deal with Barstow the agent, for \$25,000 more than the first mentioned sum. After which comes, at first uncertainly, then quite suddenly, the reconciliation of husband and wife, Tommy in the meantime, having "had it out" with Dick in the middle of the Livingston's parlor floor.

Ten Waysiders left for Jack Halls Ranch last Wednesday morning. Mrs. Bertha Payne was detained a few hours by a visit from her grandparents and aunt from Oklahoma, but joined the crowd in the afternoon. Ladies from different clubs met with them. Ninety spending the night. Gentlemen joining their wives and bringing the little folks Thursday swelled the crowd to three hundred. Those participating had a good time. They propose to make it an annual gathering, meeting in different locations.

Kenneth Knox, wife and son left for a trip to Colorado Wednesday, accompanied by Carl Rogers and Ida May Hamblen, who were married the 14th in Colorado.

Alfred Hamblen and family left for Clarendon Monday to visit the paternal Strawn home.

W. H. Hamblen, wife and four children left Saturday morning, stopping first at the Old Settlers Reunion held at Hanke Smith Memorial Park southeast of Floydada. Then to Spur visiting relatives there Sunday. They spent Sunday night with Mr. and Mrs. Curt Broyles, reaching home Monday.

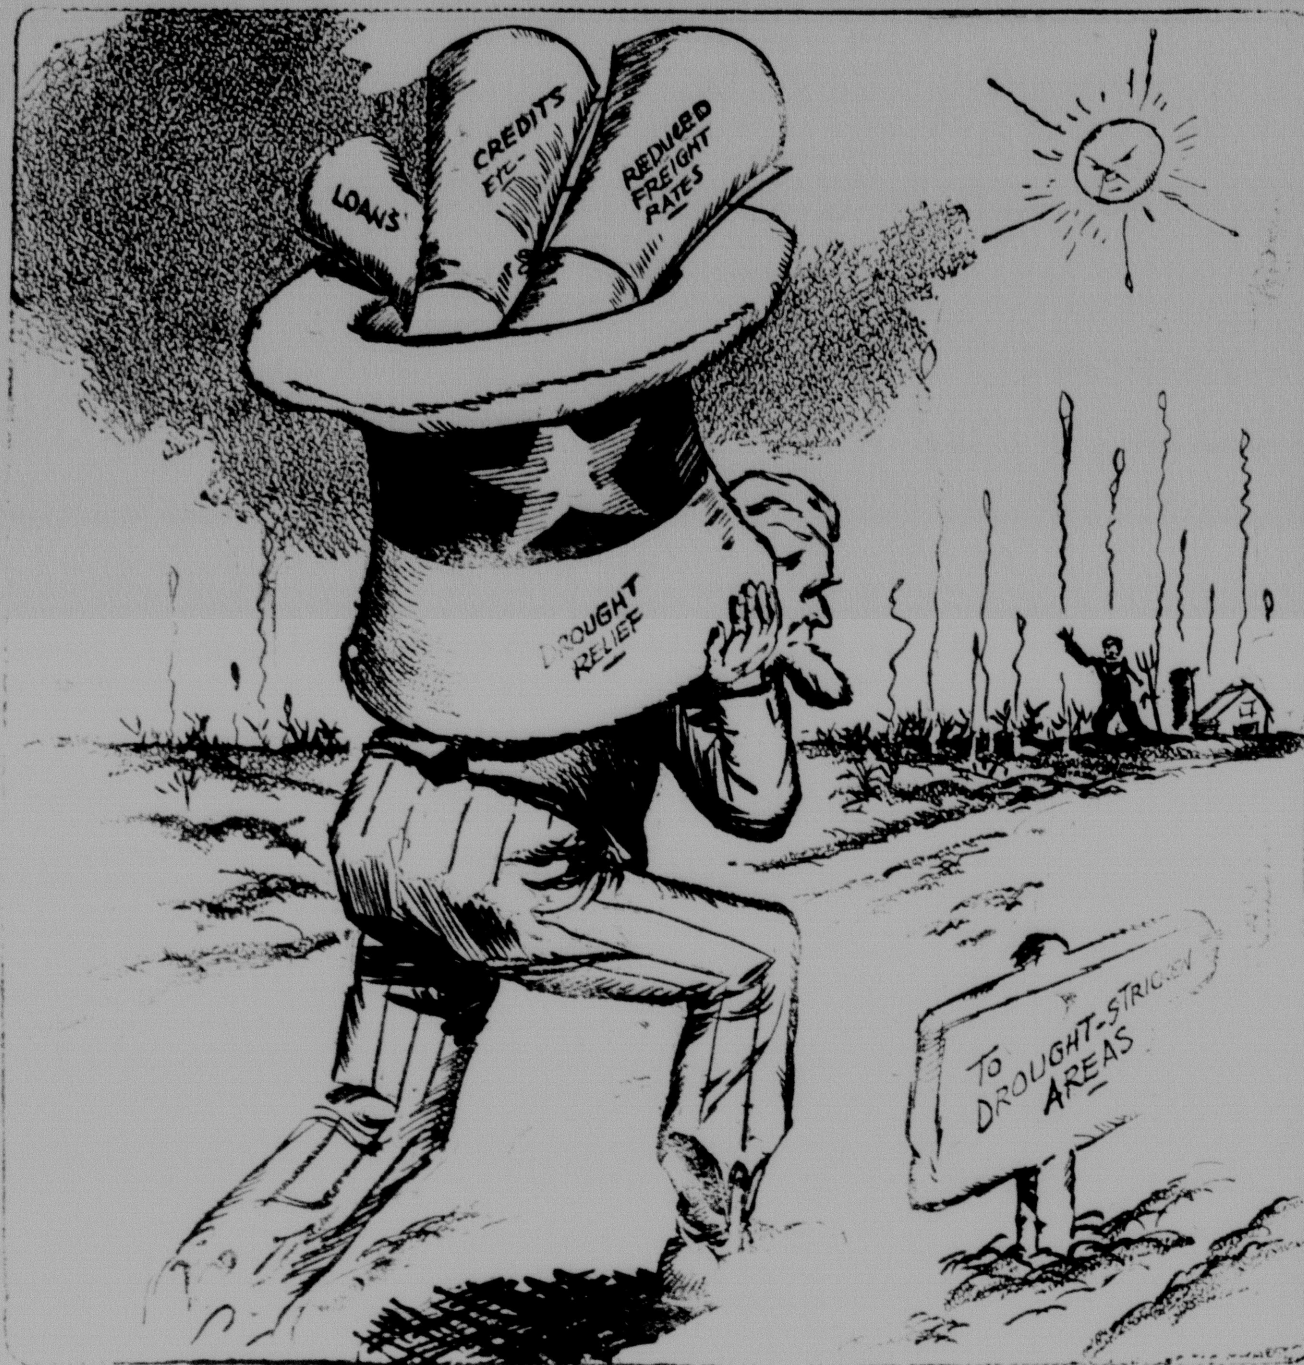

A very enjoyable meeting of the Home Demonstration Club met with Mrs. W. R. Franklin Monday afternoon, about 15 ladies were present including visitors. Plans for the coming Fair on the 29th, were discussed. Owing to the drought we cannot expect to have much in the way of garden products. After business session delicious refreshments were served of ice cream and cake.

Mr. J. E. Culwell, wife and children left Monday last week for Spur, Stamford, Weatherford and Meadow, returning Monday.

Mrs. Bertha Payne gave an excellent report of her trip to A. and M. at the club Monday afternoon.

Ethel Gertrude Games died at the North West Hospital in Amarillo on August 14, 1930. She was taken there eight days before, undergoing a very serious operation during the time. A devoted wife and mother has gone to her reward. Her friends were numbered by her acquaintances, loving, kind and true she was, a general favorite by all. Estimated to be one among the largest crowds ever assembled at Wayside Church for a funeral service followed her to her grave here at Wayside. She leaves a kind husband, four children, father and mother, four brothers and two sisters to mourn her going.

Mr. W. T. Helms and Leonard drove thru the country from Los Angeles, California. Mrs. Lena Nelson from the same place attended the funeral of Mrs. Ethel James Saturday afternoon, father, brother and sister of deceased. Rev. T. D. Summerall of Happy delivered the funeral sermon. Lovely floral offerings covered the grave. Friends from Tulla, Canyon and Happy and for miles around were here to pay their respects. The entire neighborhood is in sympathy with the bereaved ones.

Wayside Items

Ten Waysiders left for Jack Halls Ranch last Wednesday morning. Mrs. Bertha Payne was detained a few hours by a visit from her grandparents and aunt from Oklahoma, but joined the crowd in the afternoon. Ladies from different clubs met with them. Ninety spending the night. Gentlemen joining their wives and bringing the little folks Thursday swelled the crowd to three hundred. Those participating had a good time. They propose to make it an annual gathering, meeting in different locations.

Kenneth Knox, wife and son left for a trip to Colorado Wednesday, accompanied by Carl Rogers and Ida May Hamblen, who were married the 14th in Colorado.

Alfred Hamblen and family left for Clarendon Monday to visit the paternal Strawn home.

W. H. Hamblen, wife and four children left Saturday morning, stopping first at the Old Settlers Reunion held at Hanke Smith Memorial Park southeast of Floydada. Then to Spur visiting relatives there Sunday. They spent Sunday night with Mr. and Mrs. Curt Broyles, reaching home Monday.

A very enjoyable meeting of the Home Demonstration Club met with Mrs. W. R. Franklin Monday afternoon, about 15 ladies were present including visitors. Plans for the coming Fair on the 29th. were discussed. Owing to the drought we cannot expect to have much in the way of garden products. After business session delicious refreshments were served of ice cream and cake.

Mr. J. E. Culwell, wife and children left Monday of last week for Spur, Stamford, Weatherford and Meadow, returning Monday.

Mrs. Bertha Payne gave an excellent report of her trip to A. and M. at the club Monday afternoon.

Ethel Gertrude Games died at the North West Hospital in Amarillo on August 14, 1930. She was taken there eight days before, undergoing a very serious operation during the time. A devoted wife and mother has gone to her reward. Her friends were numbered by her acquaintances, loving, kind and true she was, a general favorite by all. Estimated to be one among the largest crowds ever assembled at Wayside Church for a funeral service followed her to her grave here at Wayside. She leaves a kind husband, four children, father and mother, four brothers and two sisters to mourn her going.

Mr. W. T. Helms and Leonard drove thru the country from Los Angeles, California. Mrs. Lena Nelson from the same place attended the funeral of Mrs. Ethel James Saturday afternoon, father, brother and sister deceased. Rev. T. D. Summerall of Happy delivered the funeral sermon. Lovely floral offerings covered the grave. Friends from Tulla, Canyon and Happy and for miles around were here to pay their respects. The entire neighborhood is in sympathy with the bereaved ones.

RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rexall Orderly at night. Next day bright. Get 24 for 25c to-day at the nearest Rexall Drug Store. City Pharmacy.

Election

(Continued from first page.)
issue of 'honest in government' into the final lap of the campaign. Ferguson, speaking for his wife, has made comparatively few speeches and has gone into the rural sections most of the time in the run-off campaign. He spent last week in West Texas, as did Ross Sterling. Sterling, accompanied by Walter Woodward, State senator of Coleman, and a big gun of the Small camp in the first primary, has been making four and five speeches to one of Ferguson.

Sterling has made his appeal to the people, during the past few weeks, for his election upon an honesty in government plea. He has attacked the Ferguson and their alleged proxy government and has offered Ferguson strong competition in mud-slinging.

Both candidates have made a strong fight for the votes of West Texas, both claiming a share in the passage of the Small River Bed bill, in the Legislature last year. Senator Small, author of the bill, protecting the rights of the Panhandle land owners, received 137,000 votes and carried 101 counties in West Texas to place third in a field of eleven candidates in the July Primary. In those 137,000 votes lie the balance of power between the two forces of the run-off.

There are five other run-off races for State offices, several of which are waxing hot, being overshadowed only by the governor's race. In the race for Attorney General, Robert Lee Bobbitt, present incumbent is seeking his first elective term, having been appointed by Governor Moody about a year ago. His opponent is James V. Alfred, who was defeated for the office by only 4,000 votes four years ago.

There are three county races and one precinct race in Randall county to be settled in the run-off Saturday. They are: County Judge, County Attorney, Tax Assessor and Commissioner precinct 1.

Predictions from over the State indicate almost as heavy a vote as was seen in the first primary a month ago.

Election returns will be received at the News office and posted as soon as they are received Saturday night. Election officials over the county have been notified to phone the returns of the various boxes to the News just as soon as the ballots are counted and the tabulations are made. Direct wire service from the Texas Election Bureau in Dallas will give the News the latest information on the State races every few minutes beginning about 8 o'clock.

Owing to the short ballot it is expected that the outcome of the races may be known by midnight Saturday night.

Senator Witt was born in Bell county—the son of a country doctor; he was educated at the University of Texas, graduating from that Institution in the year 1900. He made his way through the University working at boarding houses and in the Comptroller's office. He began practicing law in Waco in the year 1906. He was appointed City Attorney of the City of Waco and was serving in that capacity when he resigned his office to enter the army during the World War. The death of his predecessor in the State Senate, Senator A. R. McCollum, created a vacancy and at a special election in December 1918 Witt was elected to the State Senate. His name had been placed on the ticket by friends and election was held before he reached home. He has been re-elected three times. As a member of the State Senate, he has been chairman at various times of its most important committees and has been regarded as one of its most active and influential members.

Senator Witt is a member of the Rotary Club of Waco, the Waco City Club, the American Legion and the Columbus Street Baptist Church.

tration. Group conferences will be held at 9:15 a. m. and 1:30 p. m. for the respective groups. Questions concerning programs will be discussed briefly at this time.

Parents having children in high school can render a valuable service to both the school and the child if prospective programs are carefully checked before their presentation at the enrollment.

Under the new Texas Law, all children that have become six years of age on or before the first day of September, 1930, may attend the public schools for the 1930-31 session.

The Board of Education and the Superintendent are glad to announce that an excellent faculty has been employed for the coming session, and that ample provisions have been made in both the elementary and high school to care for the indicated increase in enrollment. Further announcement will be made in a later issue of the News.

Night Football

(Continued from first page.)
to the extent that it will be absolutely shadowless.

The equipment will be installed by the Giant Manufacturing company who have installed the greater part of the lighting equipment in the baseball parks over the United States. The equipment will be the same as that used on a number of the major baseball fields.

Coach Reeds states that the larger universities and colleges who have lighted their stadiums use between 45,000 and 50,000 watts. He cited examples of the Washington University at St. Louis and Oklahoma A & M College who use only 48,000 watts each.

Erection of the equipment is expected to begin at an early date. Blueprints are being drawn at the present time.

It is believed that the extra watts for Buffalo Stadium will add considerable to the enjoyment of the fans, as well as, to the effectiveness with which the players may work.

Those who have witnessed night games declare that from every point of view, night football is ideal.

Record Cow

(Continued from first page.)
best cow produced 95 pounds. It is interesting to note that it costs 5.6 cents less per pound of butterfat produced, to feed the high cow that it did to feed the herd, according to the figures on the cost of feeding. Mr. Fulton states. Mr. Fulton feeds a home ground ration of feed on a basis of approximately three pounds of feed to one pound of butterfat produced.

The milk from the Fulton herd is sold to wholesale distributors in Amarillo. The herd has been Federal accredited and tubercular tested since 1925.

A rain amounting to .38 of an inch fell in Canyon Tuesday evening. The rain did not extend over a large territory. It was expected that the rainfall would perhaps cool the atmosphere somewhat, but this was not the case. Yesterday was one of the warmest days of the year.

POULTRY SHOW AT FAIR

According to an announcement made by Robert Ricks, president of the Panhandle Poultry Association, the annual poultry show will be held in September in connection with the Tri-State Fair from September 22 to September 27. He states that there will be no poultry show held in December and that all exhibits will be shown in September. Mr. Branch, nationally known poultry expert, will do the judging.

No Snap for This Blue Blood

You might think that a bull with the aristocratic rearing of "Oxford May's Int. Owl," as he is called, would be spared the menial job of cart hauling. But he's doing it now as an experiment at Beltsville, Md., for the Bureau of Dairy Industry to determine the effects of exercise. He is a pure-bred Jersey and the father of 19 daughters which have won silver medals for production records.

Teachers

(Continued from first page.)
the new state law requiring the teaching of physical education, so it is expected that Miss Cross' section will be of particular interest to those attending. There will be given a number of practical demonstrations of the subject as well as numerous lectures. R. N. Sandlin, state supervisor of health and physical education, will be present and will give a series of lectures. A. M. Blackham, member of the state department of education, Miss Catherine Henderson, Miss Ella Lunday, supervisor in various departments of the state department of education, will also give lectures in the physical education section. Invitations have been extended other people of state and national importance.

Miss Nancy Gertrude Milligan, instructor in the department of education, Leland Stanford University, whose regular position is supervisor of elementary education in the city schools of Pasadena, California, will be in Canyon for a series of lectures in the department of intermediate education.

Other lectures in this section include A. L. Crabb of Peabody College, M. H. Moore, superintendent of public schools, Fort Worth, and Dr. B. F. Fronabarger, instructor in the North Texas State Teachers college at Denton.

Many entertainment features are being arranged for the three days. Musical programs, campus parties and canyon picnics are all under the direction of Miss Cross. The people of Canyon have expressed a willingness to co-operate with college authorities in entertaining and housing the expected visitors, leading to the expectation of a more successful institute than ever before.

Counties having definitely signed up for the attendance of their teachers here include: Floyd, Briscoe, Swisher, Farmer, Deaf Smith, Randall, Armstrong, Carson, Potter, Oldham, Hartley, Hutchinson, Roberts and Hemphill.

Campbell Notes

Mr. and Mrs. W. E. Green and children and Mrs. Harris left Tuesday by motor for McLean to visit Mr. Green's sister. From there they will go to Jacksboro. They will be gone 10 days.

Mr. and Mrs. Bill Roberts of Texhoma were guests of T. A. Dowlen.

Mr. and Mrs. John Robert of Dalhart are here for the reunion to be held on the 21st of August at Wragge Park.

Mr. and Mrs. R. O. Allison and family attended the Dairymen's barbecue at the Upchurch place on the canyon, 500 members and guests enjoyed the day. Beef, mutton and goat was served, having been prepared by John Snider of Amarillo, besides pies, cake, coffee, etc., after everyone had eaten their was a whole beef left uncut which was given to the Orphans Home at Amarillo by a vote of the members.

FIND STOLEN CAR WRECKED

A Chrysler roadster, said to have been stolen from Wiley Oliver of Amarillo was found wrecked in a ditch west of town early Monday morning and, George Deadwiley, also of Amarillo was found in the car badly injured by cuts. The injured man was brought to Canyon for treatment and later carried to Amarillo.

Mr. and Mrs. T. A. Kay and son returned Thursday from Missouri where they have been visiting.

Jones Elected As Head Coach Dana College

Cleveland Jones, last year quarterback on the West Texas Buffalo football team, has been elected to the position of head football, basketball, and track

coach at Dana College, Blair, Nebraska.

Jones made quite a reputation throughout Texas last year as pilot of the Buffalo eleven, which was by far the strongest eleven ever turned out at West Texas. Jones was also a forward on the Buffalo championship basketball team of the T. I. A. A. last season.

He has been declared, by both Coach Reeds and Coach Burton, as one of the best potential coaches in the entire southwest.

To Judge Master Dairymen Sept. 8

Judging of entries of the Amarillo Globe-News Master Dairy Farmer contest will begin on September 8, according to an announcement issued Sunday.

The winners of the third annual contest will be announced at the annual banquet held during the week of the Tri-State Fair, Sept. 22-27. Ten high contestants will divide the cash premiums offered, which amount to \$1,000.

The three judges of the contest are, D. N. Shepherson and A. L. Darnell of the dairy department of Texas A. & M. College and D. T. Simonds, secretary and field man for the Texas Jersey Cattle club.

There are about 65 entries in the contest and the competition this year is expected to be close and interesting. The herds in the contest are scattered over the entire Panhandle. It is believed that Randall county has about the second largest number of entries of any county in the Panhandle.

There will be a practice singing held at Jowell Sunday afternoon September 14.

ROTARY DISTRICT HEAD

Will visit in city
Raymond H. Nichols, Governor of the 41st District of Rotary, will visit the Canyon Rotary club next Tuesday on official business. He will meet members of the executive committee and chairmen of the various committees at the Presbyterian Church at 10:00 o'clock Tuesday morning to inspect the records of the local club.

Mr. Nichols is publisher of the Vernon Daily Record, and is president of the Texas Press Association.

Mr. and Mrs. E. O. Porter are staying at the Cox country home while the owners are away.

Safe Candidates

The News presents a list of candidates for state office, which it believes to be the best of those seeking your vote in the second primary:

For Governor: Ross Sterling. He is an honest, capable, sincere man, a business leader rather than a politician, and a friend to all of the people.

For Lieutenant Governor: Edgar Witt. He is one of the best posted men in the senate, fearless, well qualified and believes in a fair deal to all parts of Texas. If the governor should die, Edgar Witt is qualified to become the chief executive.

For Attorney-General: Robert Lee Bobbitt. He is now in this office. He is not of the Ferguson clique, and never was. He is fearless as a lawyer, and qualified to serve all of the people of the state.

For State Treasurer: John E. Davis. A conservative, careful man, who believes in making the state's dollars go as far as possible. He fights extravagance and waste in public office, as his record of 19 years in the House of Representatives proves.

For Commissioner of Agriculture: A. H. King. A well qualified West Texan, but first of all a Texan. He is careful and conservative, not shaken by new fads and fables, and will run the department in the most economical manner.

For Railroad Commissioner: Pat M. Neff. He made a good Governor, and is well qualified for the position he now holds. Honesty in government is his greatest desire, with a square deal for all the people of the state.

Sterling for Governor Club Offers Transportation

The Sterling-for-Governor club will furnish transportation for the old people who do not have a way to go to the polls on election day, August 23, it is announced.

Those who desire transportation may call Mrs. John Knight or Mrs. C. M. Dowlen.

Election

(Continued from first page.)
issue of "honest in government" into the final lap of the campaign. Ferguson, speaking for his wife, has made comparatively few speeches and has gone into the rural sections most of the time in the run-off campaign. He spent last week in West Texas, as did Ross Sterling. Sterling, accompanied by Walter Woodward, State senator of Coleman, and a big gun of the Small camp in the first primary, has been making four and five speeches to one of Ferguson.

Sterling has made his appeal to the people, during the past few weeks, for his election upon an honesty in government plea. He has attacked the Ferguson and their alleged proxy government and has offered Ferguson strong competition in mud-slinging.

Both candidates have made a strong fight for the votes of West Texas, both claiming a share in the passage of the Small River Bed bill, in the Legislature last year. Senator Small, author of the bill, protecting the rights of the Panhandle land owners, received 137,000 votes and carried 101 counties in West Texas to place third in a field of eleven candidates in the July Primary. In those 137,000 votes lie the balance of power between the two forces of the run-off.

There are five other run-off races for State offices, several of which are waxing hot, being overshadowed only by the governor's race. In the race for Attorney General, Robert Lee Bobbitt, present incumbent is seeking his first elective term, having been appointed by Governor Moody about a year ago. His opponent is James V. Allred, who was defeated for the office by only 4,000 votes four years ago.

There are three county races and one precinct race in Randall county to be settled in the run-off Saturday. They are: County Judge, County Attorney, Tax Assessor and Commissioner precinct 1.

Predictions from over the State indicate almost as heavy a vote as was seen in the first primary a month ago.

Election returns will be received at the News office and posted as soon as they are received Saturday night. Election officials over the county have been notified to phone the returns of the various boxes to the News just as soon as the ballots are counted and the tabulations are made. Direct wire service from the Texas Election Bureau in Dallas will give the News the latest information on the State races every few minutes beginning about 8 o'clock.

Owing to the short ballot it is expected that the outcome of the races may be known by midnight Saturday night.

every way worthy of the office he seeks.

Senator Witt was born in Bell county—the son of a country doctor; he was educated at the University of Texas, graduating from that institution in the year 1900. He made his way through the University working at boarding houses and in the Comptroller's office. He began practicing law in Waco in the year 1906. He was appointed City Attorney of the City of Waco and was serving in that capacity when he resigned his office to enter the army during the World War. The death of his predecessor in the State Senate, Senator A. R. McCollum, created a vacancy and at a special election in December 1918 Witt was elected to the State Senate. His name had been placed on the ticket by friends and election was held before he reached home. He has been re-elected three times. As a member of the State Senate, he has been chairman at various times of its most important committees and has been regarded as one of its most active and influential members.

Senator Witt is a member of the Rotary Club of Waco, the Waco City Club, the American Legion and the Columbus Street Baptist Church.

High School

(Continued from first page.)
tration. Group conferences will be held at 9:15 a. m. and 1:30 p. m. for the respective groups. Questions concerning programs will be discussed briefly at this time.

Parents having children in high school can render a valuable service to both the school and the child if prospective programs are carefully checked before their presentation at the enrollment.

Under the new Texas Law, all children that have become six years of age on or before the first day of September, 1930, may attend the public schools for the 1930-31 session.

The Board of Education and the Superintendent are glad to announce that an excellent faculty has been employed for the coming session, and that ample provisions have been made in both the elementary and high school to care for the indicated increase in enrollment. Further announcement will be made in a later issue of the News.

Night Football

(Continued from first page.)
to the extent that it will be absolutely shadowless.

The equipment will be installed by the Giant Manufacturing company who have installed the greater part of the lighting equipment in the baseball parks over the United States. The equipment will be the same as that used on a number of the major baseball fields.

Coach Reeds states that the larger universities and colleges who have lighted their stadiums use between 45,000 and 50,000 watts. He cited examples of the Washington University at St. Louis and Oklahoma A & M College who use only 48,000 watts each.

Erection of the equipment is expected to begin at an early date. Blueprints are being drawn at the present time.

It is believed that the extra watts for Buffalo Stadium will add considerable to the enjoyment of the fans, as well as, to the effectiveness with which the players may work.

Those who have witnessed night games declare that from every point of view, night football is ideal.

Record Cow

(Continued from first page.)
best cow produced 95 pounds. It is interesting to note that it costs 5.6 cents less per pound of butterfat produced, to feed the high cow that it did to feed the herd, according to the figures on the cost of feeding. Mr. Fulton states, Mr. Fulton feeds a home ground ration of feed on a basis of approximately three pounds of feed to one pound of butterfat produced.

The milk from the Fulton herd is sold to wholesale distributors in Amarillo. The herd has been Federal accredited and tubercular tested since 1925.

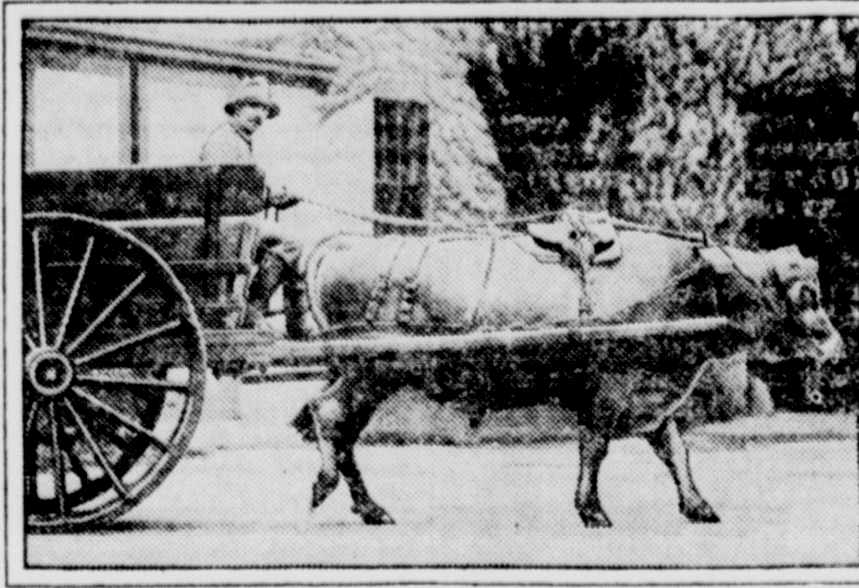

LIGHT RAIN FALLS

A rain amounting to .38 of an inch fell in Canyon Tuesday evening. The rain did not extend over a large territory. It was expected that the rainfall would perhaps cool the atmosphere somewhat, but this was not the case. Yesterday was one of the warmest days of the year.

POULTRY SHOW AT FAIR

According to an announcement made by Robert Ricks, president of the Panhandle Poultry Association, the annual poultry show will be held in September in connection with the Tri-State Fair from September 22 to September 27. He states that there will be no poultry show held in December and that all exhibits will be shown in September. Mr. Branch, nationally known poultry expert, will do the judging.
